

#### User as Seller:

1. As a seller I want the ability to list my property from anywhere, so I can efficiently manage my property listings without location constraints.
2. As a seller I want the ability to create detailed descriptions for my properties, so I can provide accurate and attractive information to potential buyers.
3. As a seller, I want to allow potential buyers to see my property listings, so I can attract potential buyers and increase the chances of selling my properties. Also, I'd like to incorporate a feature that allows me to conceal my property in case of a change of heart.
4. As a seller, I want the ability to reject or accept offers made by potential buyers, so I can effectively manage and finalize property transactions.

#### User as Potential Buyer:

1. As a potential buyer, I want the ability to see new property listings, so I can stay informed about available properties in the market.
2. As a potential buyer, I want the ability to filter house sizes when searching for properties, so I can narrow down my options based on my preferences.
3. As a potential buyer, I want the ability to save house listings for later viewing, so I can keep track of properties I am interested in.
4. As a potential buyer, I want the ability to make an offer on a property, so I can express my interest and negotiate with the seller.
5. As a potential buyer, I want the ability to contact the seller, so I can communicate directly and get more information about the property.

#### User as Viewer:

1. As a viewer, I want the ability to view new property listings, even without having an account, so I can explore available options.
2. As a viewer, I want the ability to filter house sizes when searching for properties, so I can narrow down my options based on my preferences.
3. As a viewer, I understand that I may have restrictions due to not having an account, but I want the ability to view property listings with basic information.
